Thumbstick module guide

Every 3-pin Marius build includes your choice of stick. 5-pin MIDAS builds ship with Marius Hall-effect modules, so this choice doesn't apply.

01 · STICK MODULES

Pick your stick

Magnetic (TMR) sticks have nothing to wear out, so they carry the full 12-month drift warranty.

ALPS — INCLUDED

OEM · POTENTIOMETER

The module Sony fits. A wiper on a track, so it wears with use.

TENSION	STOCK
DRIFT WARRANTY	3 MONTHS

JS13 Pro+ — INCLUDED

LINEAR TMR · FPS PROVEN

Nothing touches, so there is no wiper to wear out.

TENSION	STOCK
DRIFT WARRANTY	12 MONTHS

RS13 v3 — INCLUDED

ANGLE TMR · GEN 3

Same magnetic principle as the JS13 Pro+. Pick on feel.

TENSION	MORE EVEN THROUGHOUT
DRIFT WARRANTY	12 MONTHS

Kalih Carbon — +$30

UPGRADED POTENTIOMETER

A much better pot than the ALPS. For people who prefer pot feel.

TENSION	STOCK
DRIFT WARRANTY	12 MONTHS

JT13 — +$30

LINEAR TMR · ADJUSTABLE

You set how much force the stick takes.

! CAN'T TAKE AFTERMARKET THUMBSTICKS

TENSION	LIGHTER TO HEAVIER
DRIFT WARRANTY	12 MONTHS

HallPi V7 — BETA

ANGLE TMR · BETA

Newest module. Currently in beta testing on our bench.

TENSION	TBC
DRIFT WARRANTY	TBC

! BEFORE YOU CHOOSE THE JT13

It can't take aftermarket thumbsticks — the tension collar sits where one would go. Adjustable tension or aftermarket thumbsticks, not both.

02 · THUMBSTICK UPGRADES

Swap the thumbsticks

Both are sold as a pair. Neither fits the JT13.

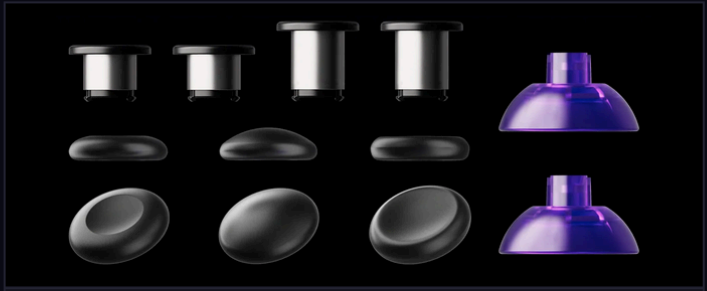

Edge-style thumbsticks +$40

PAIR

Concave, domed and tall caps.

WORKS WITH JT13 NO

Leadjoy No.2 caps +$25

PAIR · TYRE-GRADE RUBBER

Tyre-grade rubber tops for grip.

WORKS WITH JT13 NO

03 · QUICK PICK

Not sure which?

JS13 Pro+ or RS13 v3? Same magnetic principle — pick on feel rather than spec.

04 · WARRANTY

Good to know

- **Drift warranty:** ALPS carries 3 months against drift due to the mechanical nature of the component; Kalih Carbon, TMR and Hall Effect carry the full 12 months.
- **Parts and labour:** all parts and labour carry 12 months from shipment, separately.
